

Mazen Touati

Full-stack web developer

Kebili, Tunisia | +216 25 514 485 | mazen_touati@hotmail.com | <https://sunchayn.github.io>

Experience

Back-end developer, remote at ALINAOUS

Jan 2021 - Present

- Maintaining a REST API while adding new features occasionally.
- Providing technical support for clients.

Full-stack developer, full-time at ALINAOUS

June 2019 - Dec 2020

- Designed and built a REST API using: Laravel, Stripe, and Vonage. My contribution reduced the client's expenses and increased the overall performance.
- Developed interactive service dashboard using Laravel, Tailwind CSS, and VueJs.
- Created performant static websites using modern tooling.

Full-stack developer, freelance

July 2017 - Dec 2019

- Maintained and optimized PHP legacy projects.
- Developed and deployed fully-fledged websites using Laravel and VueJs.

Full-stack developer, internship at ENSI

Feb 2017 - June 2017

- Concepted and built a collaboration platform to create a components-based process to evaluate modeling languages.

Skills

Front-end

- HTML, CSS, SASS, and JavaScript(+ES6).
- CSS Architecture: BEM and SMACSS.
- Frameworks & libraries: Tailwind CSS, VueJs, and jQuery.
- Build tools: Webpack.

Back-end

- PHP and SQL.
- Frameworks: Laravel.
- Testing: PHPUnit (TDD).
